

**Florida Building Code Data:**

Use group: Assembly Group A2-Restaurant  
Type of construction: V unprotected  
Building Variables (FBC Table 500) Allowed Provided  
Building Height in Feet  
Building Height in Stories  
Building Area/Floor Area  
Increase in Gross Square Feet  
Occupant Load/Floor area per person  
Egress Width /Per person  
Length of Dead End Corridor  
Maximum distance to an Exit  
Minimum number of Exits

**Fire Protection Requirement**

Party & Fire Walls  
Structural Frame including columns,  
Girders, trusses  
Exterior Bearing Walls  
Interior Bearing Walls  
Floor Construction  
Roof Construction

**Florida Plumbing Code Data:**

**Fixtures:** Allowed Provided  
Male Female Male Female

Water Closets  
Urinals  
Lavatories

**Building Data**

Occupancy Type:  
Construction Type:  
Number of Stories:  
Number of seats  
Gross building area

**Design Loads**

Roof Live Load  
Floor live load  
Wind Speed: 0 PSF  
0 MPH  
Wind Importance Factor  
Building Category  
Wind Exposure  
Internal Pressure Coefficient  
Components & Cladding  
Soil bearing capacity

**Life Safety System**

Yes No

Emergency Lighting  
Exit Signs  
Panic Hardware  
Fire Suppression  
Fire Alarm
