

Bicycle, Motorcycle and ATV

Safety.

- Properly secure bicycles, motorcycles and ATVs as they are easily stolen and removed.
- Use reliable locks to secure bicycles, motorcycles and ATVs. Where possible, secure them properly in locked garages or sheds.
- Secure your bicycle, motorcycle or ATVs to immobile objects such as a bicycle rack cemented to the ground as opposed to easily broken objects like small posts.
- Always park in well lit and well traveled areas.
- Ride safely and defensively. Use a helmet and other appropriate safety gear.
- Make sure your motorcycle or ATV is street legal (where appropriate) before riding on public roadways. Obey all traffic laws when riding on public roadways.
- Use proper lights when riding at night.
