CITY FORT PIERCE
FUEL DISPENSERS REPLACEMENT
BID NO. 2022-028
ADDENDUM NO. 3

The purpose of this addendum is to provide a response to questions from potential bidders and revised Scope of Work, Bid Response Form, and Insurance Requirements. Please disregard the Scope of Work, Bid Response and Insurance Requirement in the original bid document and replace with the attachments.

1. **QUESTION:** Bidder Acknowledgement page 9 (Commercial General Liability). It states. Contractor shall continue to maintain products/completed operations coverage in the amounts stated above for a period of (3) years after the final completion of work. Please clarify.

ANSWER: We require the contractor to maintain products/completed operations coverage for a period of three(3) years post installation due to the huge liability this type of work represents for the city if the scope of work is not performed properly and because improper installation is not detected upon the initial install.

2. **QUESTION:** Will you be requesting a separate quote for a Fuel Management System? If so, how would you like me to submit it.

ANSWER: See Revised Bid Response Form

3. **QUESTION:** On the Bid and Response Form (Page 8). You are requesting a price for an Internal Display Board. Do you still need a quote for this section?

ANSWER: Yes

4. **QUESTION:** I would like to clarify the flow rate for the (3) PMC Fuel Dispensers you are replacing. Is line 1 and 2 correct to include on your proposal? Line 3 would be another options we discussed.

ANSWER: One (1) gas one (1) diesel on the fuel dock will be 20 gpm. One (1) diesel, one (1) gas fuel dock highest flow rate related to hose size and nozzle.

Westside highest flow rate available due to hose and nozzle size.

5. QUESTION: Is there any way for me to be able to get model and serial number of the existing fuel dispensers. I also need measurements at the base where they are mounted if at all possible. I need this information because custom plates may have to be made to install the new ones?

**ANSWER: PMC Type: SF-46/46-S1 SN:11509
Hole size 10 1/2x10 1/2 open hole with an additional 3/4 inches filled in. Total 13 3/4 L. All measurements are the responsibility of the contractor, as we are not responsible for any miscalculations.**

All other conditions of this bid remain the same.

Please acknowledge receipt of this addendum and include it with your submittal.
