

# LITTER STOPS HERE

Litter, significantly undermines the well-being and aesthetic of our cherished community, diminishing the sense of pride we take in our shared spaces. But you can be the difference!

By actively participating in the prevention of litter, we each contribute to a cleaner, more vibrant community, fostering an atmosphere of respect and gratitude for the city we call home.

**TAKE ACTION**

In March 2025, more than 500 volunteers came together to collect an impressive 1.46 tons of litter across Fort Pierce during the Annual Great American Cleanup.

## Our City. Our Responsibility.

### DID YOU KNOW?

Litter, especially plastics, can break down into microplastics that contaminate water, soil, air and harm people and animals.

**51** billion pieces of litter appear on roadways in the U.S. each year.

Individual attitudes are responsible for **85%** of littering behavior.

More than **2,000** pieces of litter per mile (both roadway and waterway).

*According to Keep America Beautiful and Keep Florida Beautiful*
