

Solid Waste Collection RATE CHANGES

Dear valued customer,

Beginning October 1, 2025, customers in the City of Fort Pierce will see a raise in solid waste collection fees.

The costs associated with acquiring new refuse trucks, along with expenses for repairs, maintenance, fuel, and overall operations, are the primary reasons for this change. The new fees will also help improve and sustain service levels for our growing community.

Please visit the Public Works Department – Solid Waste Division’s webpage for a comprehensive list of all fees and guidelines. You can do so by using the QR code below.

Attention Commercial Customers

Please visit the Solid Waste’s Division website for a comprehensive list of all fees and guidelines. Please use the QR code below.
